Los Alcores Villages I is a promotion made up of 72 homes, with an elegant style, with decorative elements that give it its own character, with natural, ecological and sustainable stone elements. This complex includes various types of housing, from detached villas, with two or three bedrooms, to semi-detached houses with three bedrooms, and even two and three bedroom townhouses. All are "triplex": with basement, ground floor, first floor and solarium. All have large terraces from where you can enjoy the countless sunny days. They also have their own plot or access porch. The development has private streets, community areas and a fantastic community swimming pool, with plenty of space to sunbathe. The unique natural environment offers the possibility of having a healthy way of life, away from stress, noise, and pollution; in short, something like a paradise. Los Alcores Villages is located on a promontory, against the backdrop of the fantastic landscape of Las Lagunas de Sal de Torrevieja and the Mediterranean Sea, erected in the residential area of Mirador de San Miguel. Just 2.5 kilometers along the CV-941 from the charming town of San Miguel de Salinas, a typical town in the Vega Baja of Alicante, a town that offers all kinds of services. The proximity to large cities such as Torrevieja, Orihuela, San Javier ... allow you to have all the essential services (hospitals, university, shopping centers, leisure, beaches ...) Los Alcores Villages has an exceptional communication route. It has easy and close access to the AP-7 (2.5 kilometers) which facilitates communication with Murcia, Alicante and Cartagena in less than 45 minutes. Enjoyment and leisure are guaranteed, the proximity of several golf courses (all 18 holes) makes for lovers of this sport a true paradise. The sun and the sea are two treasures that guarantee the success of any ideal home. There are many reasons why acquiring a home in Los Alcores Villages can change your life, but what provides a sure and decisive value is the fantastic climate that we have, with an average annual temperature of almost 18 degrees Celsius, with more than 2,700 hours of sunshine to enjoy! {loadmoduleid 177}
